Brand rules

- Brand name: Indistylex
- Primary colour: deep blue #1E4D8C on white/cream tag
- MRP: always printed (Legal Metrology — inclusive of GST)
- SKU: same as website/admin variant (e.g. IX-FRK-PINK-34)
- Size: use age bands (2-3Y, 3-4Y...) matching website
- Website: indistylex.com on hang tag back

Option A — Print barcode stickers in shop (fastest)

1. Buy direct thermal barcode printer + 40×30 mm or 50×30 mm label rolls.
2. Install printer software or use billing software “Print barcode label”.
3. For each variant print: Indistylex, product name, size, colour, SKU, MRP, barcode.
4. Stick sticker on hang tag or polybag.
5. Attach hang tag to garment with tag gun fastener.

Option B — Custom hang tags via Canva + local printer (best look)

6. Design in Canva: 50×90 mm or 60×100 mm, front + back.
7. Front: logo + brand + product line. Back: size, MRP, SKU, barcode space, website.
8. Export PDF at 300 DPI.
9. Print on art card 300–350 GSM with punch hole. Order 500–2000 pcs.

10. Leave blank area on back for thermal barcode sticker (price changes without reprinting tags).

Option C — Woven care labels (bulk stock)

11. Text: INDISTYLEX · fabric · wash icons · Made in India.
12. Order 500–1000 pcs from IndiaMART label manufacturer.
13. Size example: 60×20 mm, navy + white colours.
14. Sew into garments before display.

Sample hang tag layout:

4. Full shop setup — step by step (do in this order)

Phase 1 — Legal & accounts (Week 1)

15. Confirm GST registration for proper billing.
16. Open business bank account + UPI on shop mobile.
17. Display trade name: Indistylex.
18. Get shop & establishment licence if required in your city.
19. Choose GST billing software (see links in Section 2).

Phase 2 — Buy equipment (Week 1-2)

20. Pick starter kit (~₹23,000 without laptop) from Section 6.
21. Order: scanner + receipt printer + label printer + label rolls.
22. Order Indistylex hang tags + fasteners + carry bags.
23. Set up one billing laptop/tablet used only for shop.
24. Test: print sample bill + barcode + scan back into software.

Phase 3 — Store layout (Week 2)

25. Entrance: Indistylex flex/board + “Kids Wear”.
26. Racks grouped by Boys / Girls / Kids, then by age.
27. Eye level: new arrivals and bestsellers.
28. Counter: billing, scanner, UPI QR, bags, visiting cards.
29. Trial corner: mirror + curtain + stool.
30. Back room: unpacking and labelling table.
31. Bright white LED lighting (true garment colours).

Phase 4 — Stock & labelling (Week 2-3)

32. Export product list from Indistylex admin (SKU, size, colour, MRP, stock).
33. Every piece: hang tag + barcode sticker + visible size.
34. Shop SKU = website SKU (single source of truth).
35. Shelf labels on racks: e.g. “Girls • 2-5Y”.
36. Update admin inventory when shop sells.

Phase 5 — Staff & soft opening (Week 3)

37. Train: scan → bill → UPI/cash → pack → thank you.
38. Returns policy card at counter.
39. Shop hours board + WhatsApp order number.
40. Soft opening 2-3 days with friends/family.
41. Grand opening + Google Business profile + social posts.

Phase 6 — Daily operations (Week 4+)

42. Morning: cash check, printer paper, UPI test.
43. Every sale: bill + update stock.

44. Weekly: compare shop stock vs Indistylex admin.
45. Re-print labels when MRP/offers change.
46. Collect WhatsApp numbers (with permission) for restocks.

5. Daily shop workflow (SOP)

- OPEN → Lights/AC on · Load printer paper · Test 1 barcode scan · Check UPI QR
- SALE → Scan items · Confirm size/colour · UPI/cash/card · Print bill · Pack in Indistylex bag · Reduce stock
- CLOSE → Match cash + UPI with bills · Note low-stock SKUs · Switch off equipment

Notes

- Pictures in this document are planning mockups — verify real product specs on seller pages before buying.
- Always print MRP inclusive of all taxes on tags (Indian Legal Metrology rules).
- Keep SKU identical between shop labels and Indistylex admin for online + offline stock.
- Prices are approximate India retail ranges (2025–26) and change by city and offers.
